AMEND Senate Bill No. 2096

House Bill No. 1973*

by deleting all language following the enacting clause and substituting instead the following language:

SECTION 1. The board of medical examiners is directed to meet within a reasonable amount of time in order to determine if rules and regulations should be promulgated concerning the administration of mifepristone by a physician. No later than January 1, 2008, the board shall further file a report with the chair of the senate judiciary committee and the chair of the house health and human resources committee setting forth its findings and the action, if any, it is or will be taking with respect to the administration of mifepristone and compliance by licensees with respect to any such action. In making the determination, the board shall consider the following:

(1) Requiring the administering physician to provide a copy of the Medication Guide and Patient Agreement published by the manufacturer of the mifepristone;

(2) Requiring the administering physician to verbally inform the patient:

(A) That a certain percentage of women who take the drug will require a surgical abortion to end the pregnancy; and

(B) That the treatment regimen requires the patient to return for two (2) visits to the administering physician;

(3) Requiring the administering physician to affirmatively rule out the existence of an ectopic pregnancy by available means, including the use of ultrasound; and

(4) Requiring the pregnant woman to sign a form stating she was provided a copy of the Medication Guide and Patient Agreement and orally informed of the matters set forth in item (2) and requiring the administering physician to retain a copy of such form.

SECTION 2. This act shall take effect upon becoming a law, the public welfare requiring it.
